

Warranty terms of Van Raam GoCab B.V.

Warranty

The warranty covers all defects in the product that have been proven to be caused by a material or manufacturing fault.

Van Raam GoCab B.V. provides a five-year warranty on the frame and front fork. For all accessories and other components (excluding wear parts), we have a warranty period of two years. Warranty is applicable only under normal use and maintenance of the bicycle, as described in the user manual.

Declaration of Conformity GoCab Bike

The Declaration of Conformity can be found on our website (www.gocabbike.com) under the tab "Pricing/Documentation".

Expired Warranty and CE Declaration

The warranty and Declaration of Conformity become void if modifications or alterations are made with components other than those from Van Raam GoCab B.V. or if changes are applied to the original construction without the permission of Van Raam GoCab B.V. Pay special attention to this when dealing with non-factory-installed pedal assistance.

Pedal assistance from Van Raam GoCab B.V. can be identified by the Van Raam logos on the Silent battery and on the display, as well as specific features such as the ability to cycle in reverse with pedal assistance engaged.

Warning: The absence of a Declaration of Conformity may result in difficulties when insuring your bicycle.

Attention! Both the warranty and product liability, in general, will be void if the instructions in the user manual (available on our website for each bicycle under the tab "Pricing/Documentation") are not followed.
